User Statistics

In this article:

- [Overview](#)

The User Statistics tab is located under the **Computer Activities** reports on the left side menu:

Overview

Only the Administrator of the account has access to the User statistics section.

This report shows the login statistics of all users who joined the account. Here you'll find information about the desktop app version and the last time of sync between the desktop app and web account. This section also shows if the desktop app was installed on users' computers.

If the installed version of the **desktop app** is out of date, you'll see the red sign next to the app version.

Last login time refers to the last desktop app login date and **no.of logins** refers to how many times this user logged in to the web account.

Last login to the desktop app:

Name ↑	Email	Group	Last login	App version	Last app sync	No. of logins
EA Emily Admin	documentation@timecamp.com	People, Marketing Team	2022-08-08 11:23	1.7.2.0	2022-08-08 17:18	218

No. of logins to the web app:

Name ↑	Email	Group	Last login	App version	Last app sync	No. of logins
EA Emily Admin	documentation@timecamp.com	People, Marketing Team	2022-08-08 11:23	1.7.2.0	2022-08-08 17:18	218

If the list of users is too long you can just use the **search box** and find someone by name or email address.
