Real-time dashboard

The real-time dashboard allows supervise your staff activity in real time.

> Only Time Tracking Administrators have access to the real-time dashboard.

This report includes 4 different parts:

- Shows **the total time tracked by all users** within a selected date range and time that is actually billable
- **Top 10 tasks** users tracked their time on within a selected date range
- **Top employees** in your projects (employees that reported most time in the selected period of time)
- Shows what **tasks are being tracked at the moment**
