Welcome to TimeCamp Help!

Trello

In this article:

- Overview
- Enable integration
- Track time on imported items
- Disable integration

Trello is a collaboration tool that organizes your projects into boards. In one glance, Trello tells you what's being worked on, who's working on what, and where something is in process. With Trello integration, you can track time against Trello cards and create reports based on tracked time.

Overview

The integration will be enabled for the entire account, so **all users will be able to track time on imported tasks**. The integration will be connected to the Trello account of the person who enabled the integration.

Boards will be imported as tasks under the Trello project. Lists with their cards will be imported as subtasks under the tasks (boards) they belong to in TimeCamp.

> We don't provide an option to import custom fields from Trello cards.

If someone from your Team added new boards in Trello and the person who created the integration was not invited to those boards, they won't appear on the list of synchronized boards in TimeCamp. **Only boards the owner of integration is invited to could be imported.**

We provide an option to **select boards that should or should not be imported from Trello to TimeCamp**. After the integration is enabled and you selected the desired boards all lists and cards the owner of integration has access to, will be imported to the Projects module in TimeCamp.

The imported structure of boards won't be separated by workspaces as it is in Trello. The integration will import the entire list of boards and tasks under the main project Trello.

After the integration is created and the Trello items are imported, **all users will be automatically assigned to the Trello project and tasks as Regular users**. You can manually change their roles in this project and unassign selected users from the entire project or add them only to certain tasks. If users are assigned to the main project Trello they will be able to track time to all tasks under the Trello project structure. If users are assigned only to certain tasks, they will be able to track time only to these tasks and subtasks under the tasks' structure.

Cards, lists, and boards marked as archived or deleted in Trello will be automatically moved to the list of Archived tasks in TimeCamp. Items from the completed lists still will appear on the list of active tasks in TimeCamp. **If you create a new item in Trello it will be automatically imported to TimeCamp within 4 hours**. To immediately synchronize the integration and update newly added items use the "Force synchronization" option on TimeCamp web Timesheet. Synch will be executed within a few seconds.
If you track time using the TimeCamp power-up in your Trello cards, tracked time will be automatically added to the time report in your Trello cards.
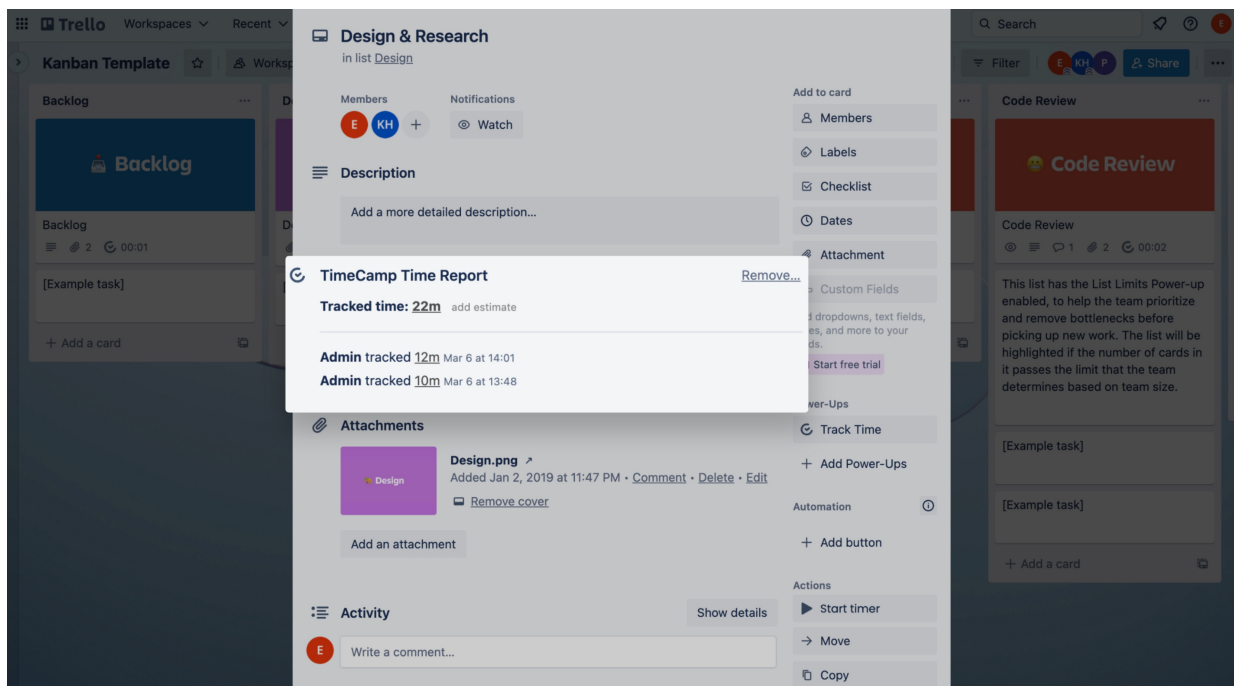

If the user who enabled the integration is not a part of your account anymore, we recommend reenabling the integration.

Enable integration

Only the Administrator of the account can enable the integration.

If your account is set to a Free version it is possible to enable Trello integration only within the power-up.
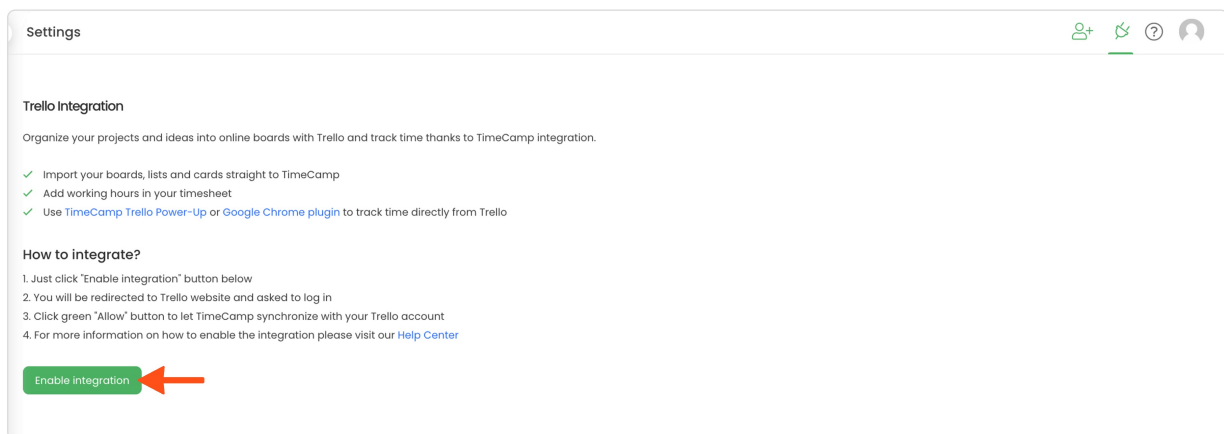

Step 1

To enable the Trello integration, navigate to the plugin icon and select the**Integrations** option. Next, find the **Trello** integration on the list and click the **Enable** button.
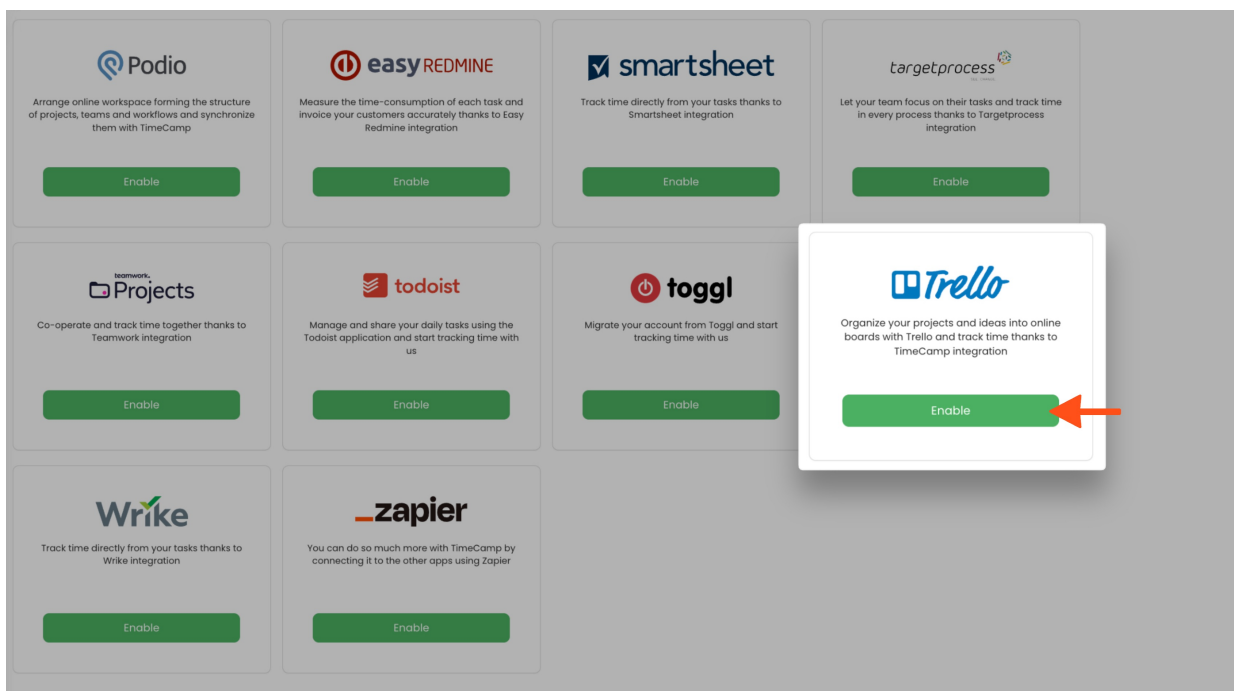

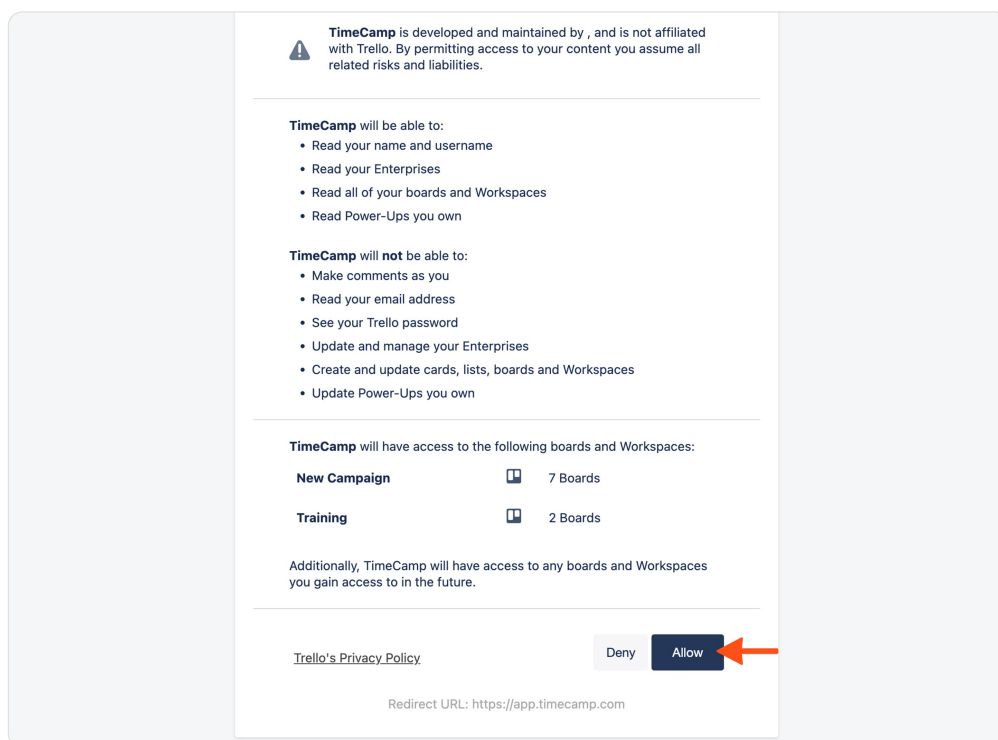

Step 2

Next, click on the green **Enable integration** button.

Trello Integration

Organize your projects and ideas into online boards with Trello and track time thanks to TimeCamp integration.

✓ Import your boards, lists and cards straight to TimeCamp
✓ Add working hours in your timesheet
✓ Use TimeCamp Trello Power-Up or Google Chrome plugin to track time directly from Trello

How to integrate?

1. Just click "Enable integration" button below
2. You will be redirected to Trello website and asked to log in
3. Click green "Allow" button to let TimeCamp synchronize with your Trello account
4. For more information on how to enable the integration please visit our Help Center

Enable integration

Step 3

You'll be redirected to Trello and asked for a confirmation to enable the integration. Click on the**Allow** button.

TimeCamp is developed and maintained by , and is not affiliated with Trello. By permitting access to your content you assume all related risks and liabilities.

TimeCamp will be able to:
- Read your name and username
- Read your Enterprises
- Read all of your boards and Workspaces
- Read Power-Ups you own

TimeCamp will **not** be able to:
- Make comments as you
- Read your email address
- See your Trello password
- Update and manage your Enterprises
- Create and update cards, lists, boards and Workspaces
- Update Power-Ups you own

TimeCamp will have access to the following boards and Workspaces:

New Campaign   7 Boards

Training   2 Boards

Additionally, TimeCamp will have access to any boards and Workspaces you gain access to in the future.

Trello's Privacy Policy   Deny   Allow

Redirect URL: https://app.timecamp.com

Step 4

Your next step will be **selecting boards** that should be synchronized to TimeCamp. Import them all or mark specific ones with checkboxes and save your changes.
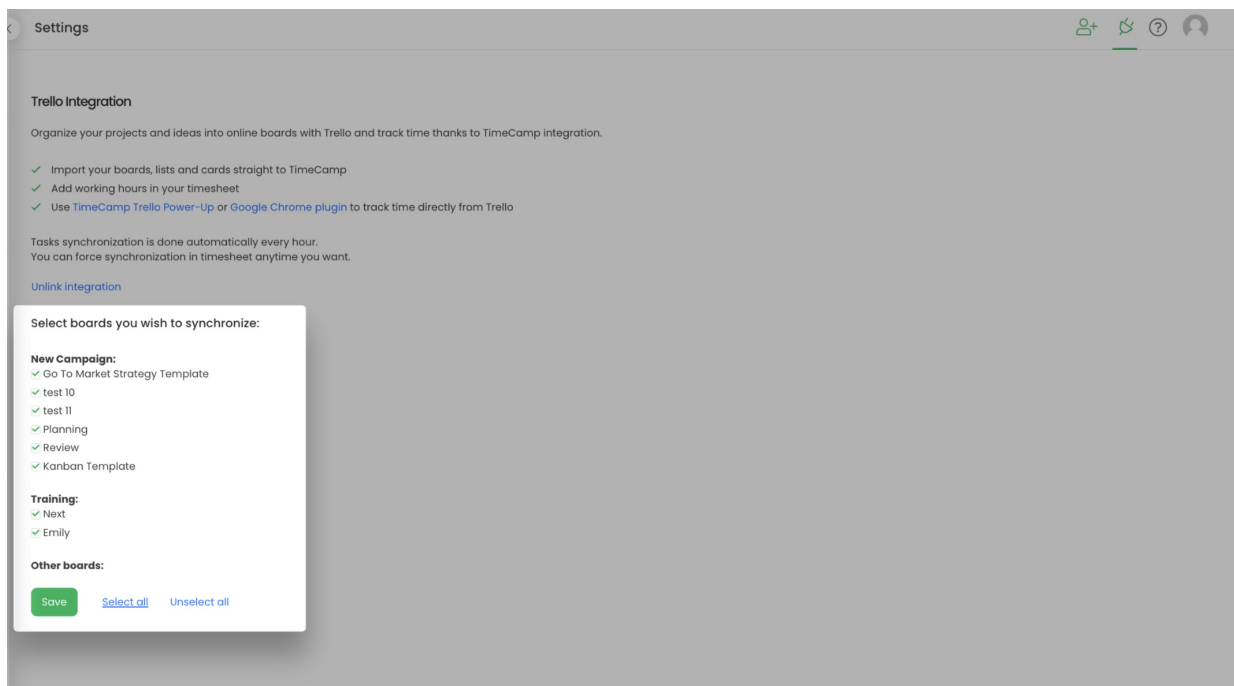

Your Boards, Lists, and Cards will be imported to the Projects module in TimeCamp. All imported items will be accessible for you to track time using TimeCamp's timesheets, mobile, desktop application, browser plugin, or power-up.

Track time on imported items

Trello power-up. If you added a TimeCamp power-up to your cards in Trello, simply open the card you would like to track time on, click on the "Track time" button under the Power-Ups section, and next click on the "Start timer" button. When you finished tracking just click on the red "Stop timer" button. The history of tracked time will be added to the TimeCamp Time Report on each card. Learn more

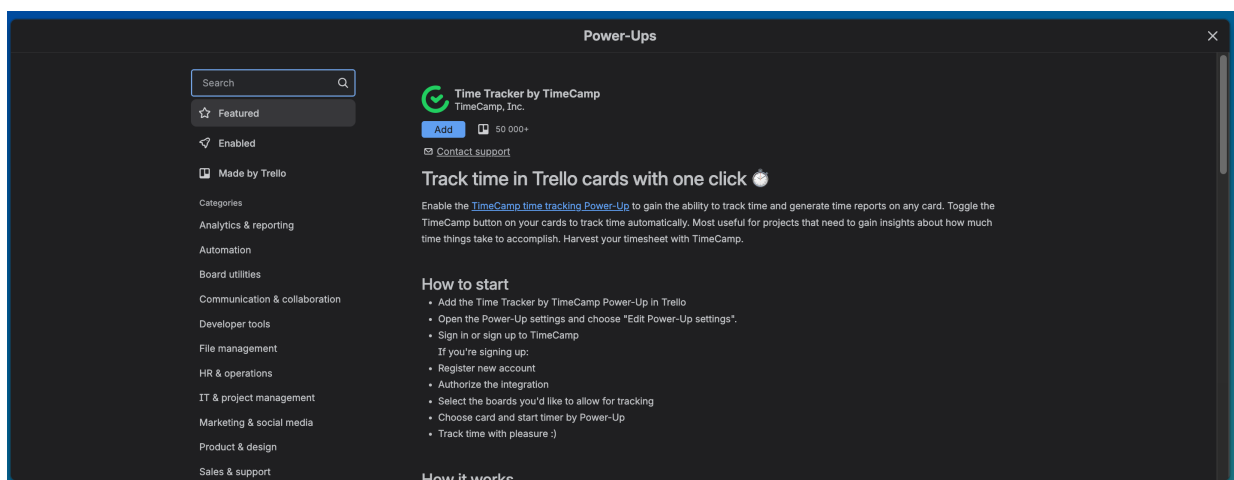

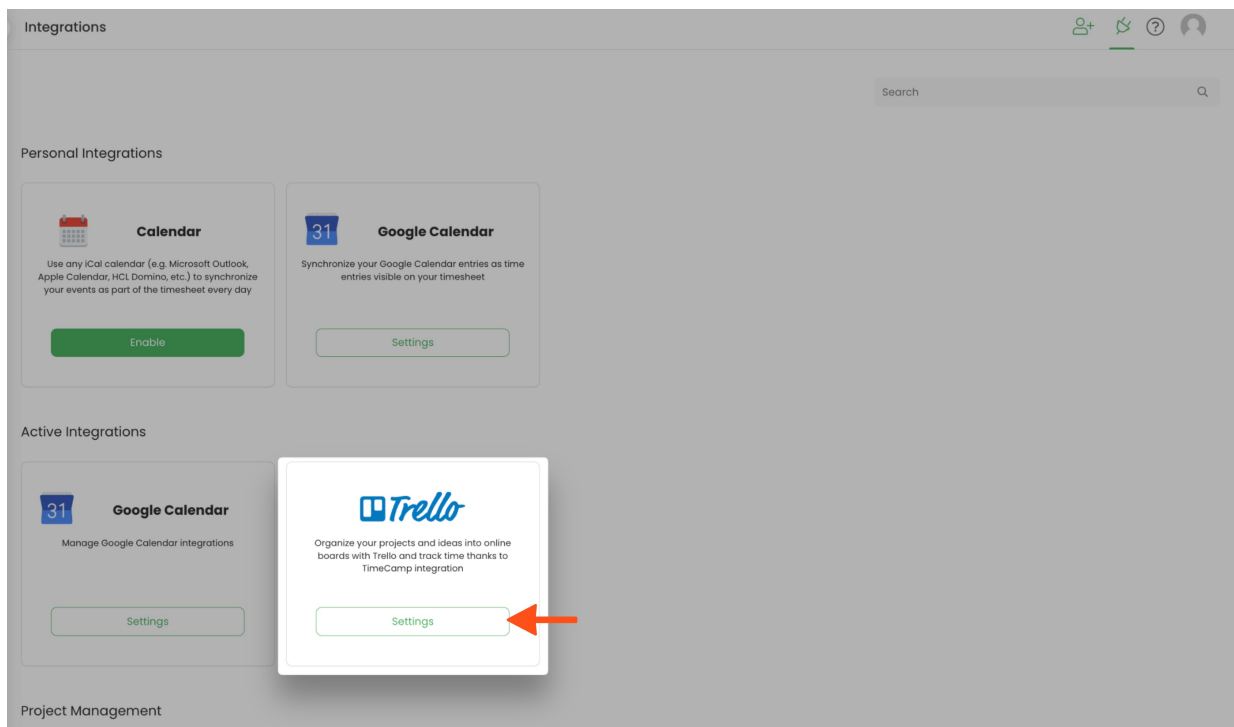

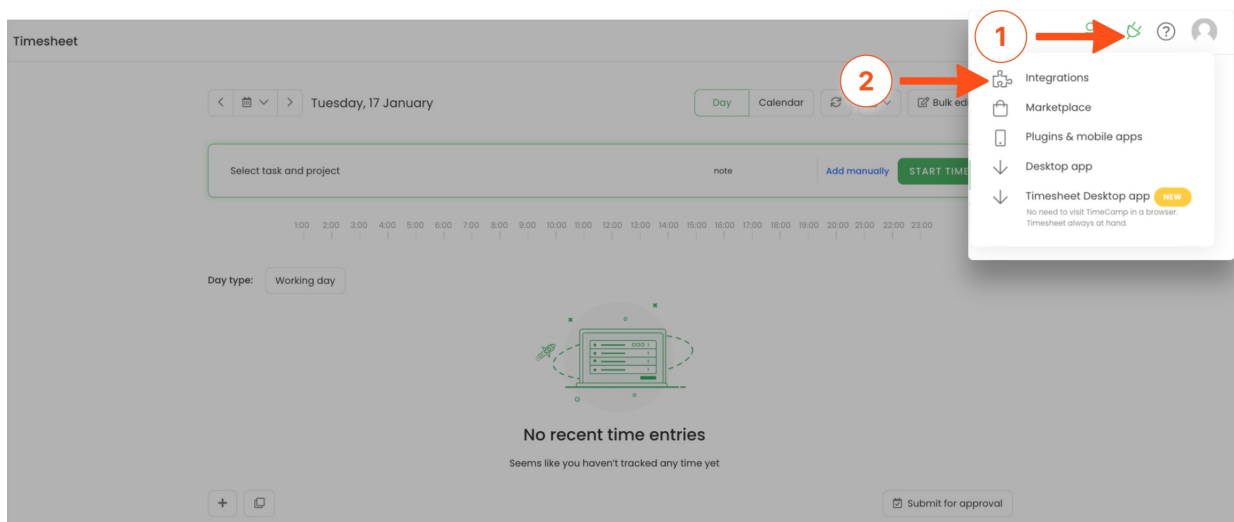

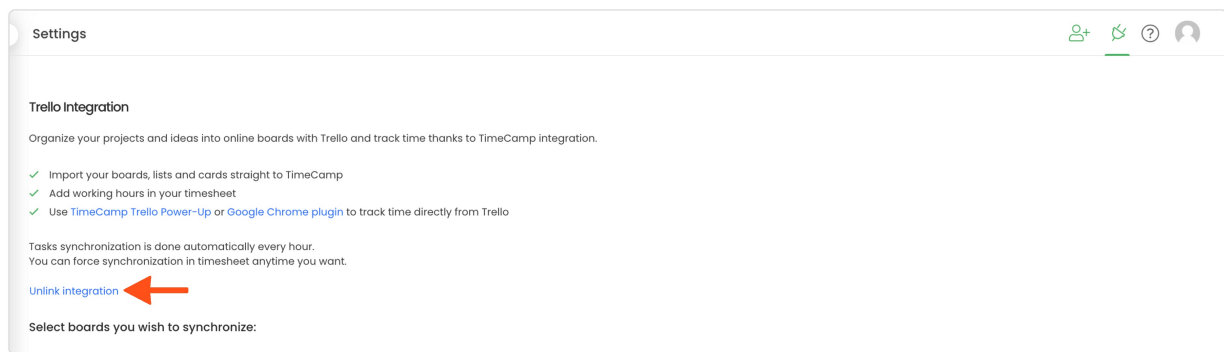

Disable integration

Step 1

If for some reason you would like to reenable or unlink the integration, navigate to the plugin icon and select the **Integrations** option. Next, find the **Trello** integration on the list of active integrations and click on its **Settings**.

Step 2

Next, to unlink the integration simply click on the **Unlink integration** button

Settings

Trello Integration

Organize your projects and ideas into online boards with Trello and track time thanks to TimeCamp integration.

✓ Import your boards, lists and cards straight to TimeCamp
✓ Add working hours in your timesheet
✓ Use TimeCamp Trello Power-Up or Google Chrome plugin to track time directly from Trello

Tasks synchronization is done automatically every hour.
You can force synchronization in timesheet anytime you want.

Unlink integration

Select boards you wish to synchronize:

To re-enable the integration first, unlink it, next click on the **Enable integration** button again, and proceed with the authorization. Select the boards you would like to synchronize and the list of active items imported to TimeCamp will be updated immediately.
