Q

Task's time report

The time report of a specific task shows not only its total time but also presents budget, cost, and income statistics. Here you can find the list of all time entries assigned to a specific task and check what activities were registered during tracking time on that task.

The report's data might be presented differently depending on the project role of the user who is checking the report.

To open the task's time report navigate to the Projects module and hover your mouse on a task you'd like to check. Next click on the "**report**" icon next to it.

You'd be redirected to a time report of this specific task.

At the bottom part of the report, we prepared a few tabs with different types of summaries.

Tasks tab shows the list with the total time tracked to the task and its subtasks within the selected period. Here you can also find the details of costs and income rates of each task, its budget, and assigned users.

People tab shows the list of users who tracked time on the task and its subtasks and the total hours tracked by each user.

Activities tab shows the list of websites and applications that were registered and assigned during tracking time to the task and its subtask. This report can be downloaded as an Excel file. If you would like to reassign some activities to another tasks you can do it directly on your Timesheet.

Here you can learn how to move activities between tasks on a Day Timesheet and here you can find instructions explaining how to remove activities.

Time entries tab shows the list with all entries assigned to the task during the selected period. This report can be downloaded as an Excel file. If you click on total hours next to the specific time entry you'll be redirected to the Timesheet where you can edit it or delete it.

Tags tab shows the list of all tags assigned to the selected task. Here you can find the total amount of time assigned to a specific tag and the name of user who used that tag.
